

ARTISTAS EN RESIDENCIA 2019

Artistas en Residencia is a joint initiative of La Casa Encendida and CA2M Centro de Arte Dos de Mayo that supports performative approaches to body-centred creation and research.

It is articulated around the permanent programme of La Casa Encendida and CA2M, so priority will be given to projects that fall within the lines of research and experimentation pursued by both centres. Artistas en Residencia also attempts to establish dialogues between artists and agents associated with both institutions and their programmes.

The residency at the facilities of La Casa Encendida and CA2M is for a maximum of eight weeks. Work spaces and hours will be assigned according to each project's requirements and the areas available at the centres.

The seven selected projects will be announced on www.ca2m.org and www.lacasaencendida.es on 21 December 2018.
